Declare Your Independence from Bottled Water with A New Water Filtration System from Your 1 Plumber.

We all use bottled water at one time or another to satisfy our need for pure drinking water. But far too many people rely solely on bottled water for that purpose and the result is an ecological menace. Consider these very real and alarming statistics:

- Plastic bottles take 700 years to begin composting
- 90% of the cost of bottled water is due to the bottle itself
- 80% of plastic bottles are not recycled
- 38 million plastic bottles go to the dump per year in America from bottled water (not including soda)
- 24 million gallons of oil are needed to produce a billion plastic bottles

For those occasions where bottled water is your only clean water solution, please recycle. But for just about every other clean water need, Your 1 Plumber can give you exactly what you need with a home water filtration system. These are the two types we recommend and install most often:

- **Point-of-use (also called "under sink") water filters remove lead from drinking water** immediately prior to consumption, thus preventing this harmful substance from entering the body.
- **Whole-house water filters** provide cleaner and healthier water at every water source in your home, including your washing machine, dishwasher, faucets, shower, and all the rest. This is the solution for people who want clean, soft, and filtered water...period.

Green & Healthy Living Tips

Invest in the environment, and replace your old toilets. With the savings on your water bills, a high-efficiency, low-consumption toilet will soon pay for itself. They use only 1.28 gallons per flush.

More Benefits of Filtered Water.

- Water filters greatly reduce the risk of rectal cancer, colon cancer, and bladder cancer by removing chlorine and chlorine byproducts from drinking water.
- A solid block carbon water filter can **selectively remove dangerous contaminants** from drinking water while retaining healthy mineral deposits that balance the pH of drinking water.
- Water filters provide the healthiest water for children's developing immune systems.
- Water filters offer the last line of defense between the body and the **over 2,100 known toxins that may be present in drinking water.**

What's more, whole house systems provide these water softening pluses:

- Cleaner sinks, bathtubs, fixtures and tile
- Cleaner, brighter laundry
- Less time spent scrubbing the kitchen and bathroom
- Softer, smoother skin
- Shinier hair
- Softer, fluffier laundry
- Water heating bills reduced by up to 29%

Independence Day Savings from Your 1 Plumber!

As a special Independence Day offer, and to help free yourself from an over-reliance on bottled water, Your 1 Plumber is pleased to offer you a **\$45 savings on a point-of-use or whole-house water filter with the coupon on page 3 of this newsletter.**

Happy 4th of July from all of us at Your 1 Plumber.

Sincerely,

William Kirkorian
President

Amazing Fact

In addition to the United States, four other countries celebrate the 4th of July: Denmark, Norway, Sweden, and England.

Firecracker Fried Chicken Drumsticks

"One more way to celebrate independence with this simple but delicious recipe."

Prep Time: 20 Minutes, Cook Time: 30 Minutes, Servings 4

Ingredients:

- 8 chicken drumsticks
- 1/4 cup hot pepper sauce
- 1/3 cup all-purpose flour
- 2 tablespoons yellow cornmeal
- 1/2 teaspoon salt
- 3 cups vegetable oil for frying

Directions:

1. Remove skin from chicken and place in a resealable plastic bag. Pour sauce over chicken, seal bag, and refrigerate to marinate for at least 1 hour, up to 24 hours. The longer the chicken marinates, the spicier it will be.
2. Heat oil in a deep-fryer or large skillet to 350 degrees F (175 degrees C).
3. Combine the flour, cornmeal, and salt in another resealable plastic bag. Add the drumsticks, seal bag, and shake to coat.
4. Fry the chicken, uncovered, for 25 to 30 minutes or until juices run clear. Turn occasionally to brown evenly.
