Earth Day is One Day Worth Celebrating...Every Day of the Year!

Have you ever searched the web for significant dates for any given month? The mind boggles.

In April, for example, there are 77 such dates that we're confident you're all familiar with, including these all-time favorites: **Tweed Day, Tell a Lie Day, Sorry Charlie Day, Ex-Spouse Day, Richter Scale Day, and – who could ever forget – National Shrimp Scampi Day.** Want a good laugh? Look up the rest.

In the process, however, you'll find one day the entire world recognizes and celebrates: Earth Day.

Here are just a few of the ways you and your family can celebrate Earth Day and all that it represents:

- **Set specific goals to recycle and save energy.** It's often as easy as changing your light bulbs, adjusting the setting on your fridge, or making a routine trip to a nearby recycling bin.
- **Plant flowers at a local non-profit organization or church.** Contact the organization prior to planting. Most of these organizations are thrilled when someone offers to beautify their grounds.

Green & Healthy Living Tips

Pick bright colored foods. Fruits and vegetables with bright colors are usually high in anti-oxidants. Anti-oxidants are good for health because they remove free radicals in our body that damage our cells.

- **Go on a nature hike.** Nature hikes are a great way to appreciate the beauty of our planet. Pick a park or nearby trail and make this a regular part of your leisure time activities.
- **Clean up litter at a local park.** Litter detracts from their beauty and can be dangerous to people and animals.
- **Organize an Earth Day Scavenger Hunt.** Come up with a list of items for your children to find in nature. Then have them draw pictures of and discuss what they found.

At Your 1 Plumber, **we offer you numerous ways to go green** without sacrificing one bit of comfort or convenience.

For example, by replacing an existing toilet with a dual-flush model, **the average family of four can conserve 7,000 gallons of water per year.**

Dual-flush toilets have two flush options: one for liquid waste that uses only 1.1 gallons per flush, and a second for solid waste using 1.3 gallons per flush.

Today, **Your 1 Plumber is pleased to offer you a \$45 savings on a new dual-flush toilet** with the coupon on page 3 of this newsletter. You'll love its efficiency and appreciate your own green plumbing initiative.

Happy Earth Day!

Sincerely,

William Kirkorian
President

Amazing Fact

If every American recycled just one-tenth of their newspapers, we could save about 25 million trees each year.
