When it Comes to Preventing Water Damage in Your Home, This Cop is Always on Duty.

A water leak can occur at any time, and any place within your home. If you're there to spot it, you can at least minimize property damage, starting by shutting off your main water valve.

But what happens when you're asleep, not at home, or away on vacation? In that event, the chance of extensive property damage increases greatly. Each year, in fact, **more than 2,500,000 homeowners suffer, in total, billions of dollars in preventable water damage.**

Now, Your 1 Plumber offers you a simple and highly effective solution: the **WaterCop automatic shutoff valve.**

Along with the valve itself, WaterCop comes with **wireless sensors** we can install anywhere a water leak might occur. While these sensors rely on "**line of site**" **detection** (up to 200 feet per sensor), we also can install **range extending sensors** that communicate with each other – and then back to the WaterCop valve – for whole-house water leak detection.

Here are additional WaterCop optional features:

- A wall switch for convenient push-button water control.
- Freeze sensors to help stop damage caused by frozen pipes.
- Easy integration with home security systems.

Green & Healthy Living Tips

Go Bananas. People whose diets are rich in potassium may be less prone to high blood pressure. So, besides reducing sodium and taking other heart-healthy steps, eat potassium-packed foods like bananas, cantaloupe, and oranges.

Just how sensitive are the WaterCop sensors and the shutoff valve itself?

Sensitive enough to shut off your household water supply when even just a few ounces of water are detected.

Across the US, the average amount of water damage stemming from water leaks is **about \$2,400 per household**. And while most insurance policies cover water damage when the claim is reported early on, **no amount of insurance can replace damaged or ruined family heirlooms**, like photos, old newspaper articles, yearbooks, and more.

Today, Your 1 Plumber is pleased to offer you a **\$41 savings**, including installation, on a new Water Cop shutoff valve and sensors for your home. Because while water leaks themselves can't always be prevented, their potential to cause damage can be eliminated, once and for all, with Water Cop.

At Your 1 Plumber, we're *Close to Home*, and always happy to be of service.

Amazing Fact

Michael Jordan makes more money from Nike annually than all Nike factory workers in Malaysia combined.
