Trendy Accessories that Can Add Spice, Convenience & Comfort to Any Bathroom

From vacuums that run themselves to cars that drive and park themselves, there's no denying that technology is finding its way into every aspect of our lives. And now, your bathroom can also be on the cutting edge of all that is cool and trendy.

That's right, you can now turn your once purely functional bathroom into a customized, high-tech, magazine-worthy showpiece. And while some of the gadgets and accessories can set you back a pretty penny, many others are quite budget-friendly.

Here's just a sampling of the latest in bathroom technology.

- Don't miss a second of your favorite show with a stylish and seamless **mirror television**. Now you can catch up on sports highlights or get the latest weather forecast as you go about your morning routine without unsightly wall-mounting hardware or televisions that take up precious counter space.
- Install a **shower controller** so you can customize your shower functions at the touch of a button. Set the perfect water temperature, pressure, and stream, play music from Bluetooth enabled devices, and even program settings for up to four people.
- Toilets have gone high-tech with models **that clean themselves with every flush**, conserve water, and offer the ultimate in luxury with motion-activated heated seats plus built-in night lights.

Green & Healthy Living Tips

Drink filtered tap water.

Many people confuse hunger and thirst, causing them to snack when they're thirsty. The solution? Drink cold water—it quenches thirst, helps you feel full and keeps your body operating at full capacity.

- If you like to sing along with your favorite tunes in the shower, you'll have a grand ol' time with a **showerhead speaker**. This wireless speaker pairs with any Bluetooth enabled device to deliver your favorite tunes right to your shower.
- Enjoy the added convenience of a **hands-free faucet**. Available in many styles, finishes, and price points, these touchless or one-touch faucets provide automatic start and stop while reducing the spread of germs and keeping your sink area clean.
- Do you do your best thinking in the shower? Prevent those ideas from going down the drain with a **water-proof notepad**. The unique water-proof, recyclable paper allows you to jot down ideas in the shower, and even under water.

Then again, maybe you're just looking for a basic replacement toilet or faucet, a couple of well-placed grab bars for added safety, or an anti-scald shower valve to prevent sudden and severe burns. **If it has anything to do with plumbing, it has everything to do with Your 1 Plumber.** And today, like always, we're here to enhance time spent in the bathroom in a growing number of ways.

Look for the coupon on page 3 of this newsletter to save on your upcoming bathroom update, and contact Your 1 Plumber today to schedule service.

Until next time,

William Kirkorian
President

Amazing Fact

X-rays have revealed that there are three different versions of Mona Lisa under the first image.

You Gotta Laugh

"Your hand and your mouth agreed many years ago that, as far as chocolate is concerned, there is no need to involve your brain." *Dave Barry*
